

We are proud of IPARKS' strong financial foundation, and we'd like to thank our members for contributing to that success.

For 30 consecutive years, IPARKS has been awarded the highest financial rating of AAA from Demotech, Inc. A high ranking of AAA, as defined by Demotech, means that IPARKS possesses unsurpassed financial stability related to maintaining a positive surplus with regard to members, liquidity of invested assets, an acceptable level of financial leverage and reasonable loss and loss adjustment expense reserves and pricing.

In 1989, Demotech became the first to review independent, regional and specialty insurers. Having reviewed and rated self-funded public entity pools and health maintenance organizations for several years prior to that, to date less than 15% of the insurers reviewed have been assigned its highest rating.
