ANNUAL REPORT

LETTER FROM THE CHAIR

Macomb Park District

As Chair, I am pleased to share highlights and accomplishments from the IPARKS program over the past year on behalf of the Board of Directors. Throughout 2025, IPARKS continued to serve our members with a clear focus on what has always defined the program: making risk management easy, empowering members to act with confidence, and delivering solutions tailored to each district's needs.

Risk management remains the cornerstone of IPARKS. Our service team stayed deeply engaged with members, providing responsive guidance, practical resources, and thoughtful support that promotes safe community engagement and sustainable outdoor recreation. We strive to make risk management easy to navigate, empowering members with the tools, ideas, and advice needed to protect their districts while confidently serving their communities. Just as importantly, IPARKS is not a one-size-fits-all program—our team partners with each member to ensure coverage and services truly reflect individual operations and exposures.

IPARKS has long taken pride in delivering exceptional member service, and 2025 was no exception. Our communication efforts—including e-blasts, newsletters, advertisements, and the annual calendar—continued to connect members with timely and relevant resources. The IPARKS Resource eLibrary remains a valuable training and education tool, and recent updates to its look and feel have improved usability. In 2026, we look forward to expanding its content to further support member safety, operations, and risk management efforts.

We were also excited to welcome six new members to the IPARKS program in 2025. This growth reflects the strength of the program, the trust of our members, and the shared commitment to proactive risk management across our communities.

On behalf of the Board, thank you to all IPARKS members for your continued partnership and confidence in the program. IPARKS not only helps manage risk—it supports the preservation, accessibility, and responsible use of our parks, forest preserves, conservancies, and special recreation facilities, enhancing quality of life throughout the communities we serve.

As we look ahead to 2026, the IPARKS program will transition to a new program administrator, bringing additional depth of experience and support for our members. This change is intended to strengthen IPARKS' ability to deliver practical guidance, dependable claims coordination, and thoughtful risk management solutions, while maintaining the responsive, member-focused service districts rely on. While the administrator will change, IPARKS' core commitment remains the same: trusted partnership, flexibility, and service tailored to each member's needs.

Thank you for your dedication to public outdoor spaces and for your continued support of IPARKS.

Warm regards,

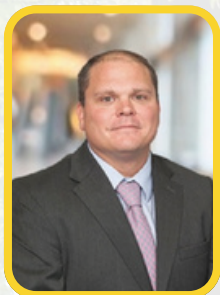

KEVIN YATES
